CEREC Crowns

LG DENTAL
STUDIO

As of May 1, we are reestablishing our office as LG Dental Studio. We are thrilled to be moving forward in a new, progressive direction to be able to offer our wonderful patients the highest standards of care. We are embracing digital impressions (no more gooey material!) which are more accurate and allow for us to make crowns and onlays in a single visit. Much more convenient, less visits and less injections. And you can actually watch your crown being made!

Digital impressions

We are also offering 3 different types of whitening so that there is something for everyone. And last but not least, we are offering free smile consultations so you can see a simulation of how you could look with the smile you've always wanted.

Lots of exciting new things are happening! Thank you for being such amazing patients and we look forward to better serving you!

Introducing
Opalescence Whitening

We now offer 3 different products to whiten your teeth!

Sensitive? Short on time? We got you covered.

Need help choosing? Let us help you choose the best whitening product for you to brighten that smile!

- * In house whitening in an hour
- * Gel for take home whitening trays
- * Pre-made moldable trays with gel in them. Great for on the go!
- * Perfect Mother's Day gift!
